

## **TRAVEL ADVISORY**

### **Security Situation in the Middle East Region**

Tuesday, 10 March 2026

The Ministry of Foreign Affairs and External Trade advises Fijian nationals to closely monitor developments in the Middle East following the recent escalation of hostilities in the region.

Fijians are strongly advised to avoid all travel to, or transit through, the Middle East region at this time. This includes travel to or transit through the following countries:

**Bahrain, United Arab Emirates (UAE), Kuwait, Qatar, Saudi Arabia, Iraq, Iran, Israel, Jordan, Syria, Lebanon, Azerbaijan, Türkiye, Yemen, Oman and Cyprus.**

Fijian nationals who are currently visiting or travelling in the region are advised to leave as soon as it is safe to do so, including by using available commercial flight services as they gradually resume in some countries.

Travellers should contact their airline or travel provider to confirm the status of flights before departing for the airport. Where the most direct route is unavailable, travellers are encouraged to consider alternative travel routes where possible.

Fijian nationals currently in the region are also encouraged to register with the Fiji Embassy in Abu Dhabi or the Fiji Embassy in Jerusalem to ensure they can be contacted and assisted if necessary.

If you are in a location where airspace remains closed or where the security situation makes it unsafe to travel, you are advised to shelter in place and follow the instructions of local authorities at all times.

The Ministry's joint emergency Operations Centre continues to closely monitor developments and is exploring all available options to support Fijian nationals who may be affected by the situation.

Fijian nationals requiring consular assistance may contact the following:

**Ministry of Foreign Affairs and External Trade – Suva**
